Barcelona
June 28-29
2010

Monday 28 Medical Optics: Light as a Tool for Diagnosis and Therapy
Tuesday 29 Nanoscopy and Optical Super-resolution Imaging

The ICFO Light for Health Event will bring together the region's biophotonics community and leading scientists from the biomedical, biophotonics and super-resolution imaging research fields. The event comprises lectures by renowned leaders in these areas, panel discussions and lab tours. The two-day event will be a gathering space for ICFOians, medical doctors and clinicians, biologists, physicists, engineers, chemists and experts from small and large corporations. The event includes the European release of the new STED CW System by Leica Microsystems.

CONFIRMED SPEAKERS

Medical Optics (28 June)

Brian C. Wilson Ontario Cancer Institute, Canada
Katarina Svanberg Lund University Hospital, Sweden
Daniel Licht The Children's Hospital of Philadelphia, USA
Hellmuth Obrig Max Planck Institute for Human Cognitive and Brain Sciences, Germany

Nanoscopy (29 June)

Niek van Hulst ICFO, Spain
Paul French Imperial College, UK
Melike Lakadamyali Harvard University, USA
Alberto Diaspro Italian Institute of Technology, Italy
Luis Serrano Center for Genomic Regulation, Spain
